MA in Public Finance, Galatasaray University	2002–2004
BA in Economics, Galatasaray University	1995–2001

ACADEMIC RANK Associate Professor of Economics

AI strategy and consultancy

I help organizations decide where generative AI and automation belong in their workflows, and where they do not. That is an economic question before it is a technical one: what a task costs now, what it would cost with AI, and what could go wrong. My background in managerial economics and law and economics is what I bring to it.

In practice, I am embedded inside the competition and regulation team of a leading international law firm, where I design AI workflows, complex prompts, and reusable playbooks on a leading European legal AI platform. I distinguish carefully between general-purpose AI tools (for non-confidential academic and marketing work) and confidentiality-grade legal AI platforms (for client work), and I build custom MCP-based research infrastructure for legal and academic research.

Economic consultancy

I provide expert economic analysis in competition law and regulatory matters, with experience spanning antitrust investigations in platform, electricity, banking, cement, petroleum, and retail industries, as well as regulatory proceedings on issues including net neutrality, OTT services, electrification, and climate policy. My work has included quantitative market analysis, economic opinion writing, and testimony support for law firms and companies in proceedings before the Turkish Competition Authority and in international trade defense cases.

Research interests

Generative AI and economics · Industrial economics · Competition policy · Economics of platforms · Digitalization · Climate change

Teaching

BAHÇEŞEHİR UNIVERSITY

Generative AI for Economic Analysis	undergraduate
Managerial Economics	MBA, PhD
Platform Business and Economics	MBA
Industrial Organization	undergraduate
Platform Economics	undergraduate
Innovation & Competition Policy in Digital Markets	undergraduate
Economics of Climate Change	undergraduate
Law & Economics	undergraduate

GUEST LECTURING

Antitrust Economics, Bilgi University	2018–2022
Competition Policy in Digital Markets, Koç University	2018–2019
Regulation and Competition in Platform Industries, Istanbul Technical University	2019
